

FFPE Normal Tissue Sections

Description: The normal tissue was freshly harvested, fixed in 10% buffered neutral formalin and processed for embedding in low temperature melting paraffin. Paraffin tissue blocks were sectioned at a thickness of 5-7 μm and mounted on positively charged slides. All tissue preparation steps from harvesting to frozen in O.C.T. are done in RNase-, DNase- and protease-free conditions.

For Lot specific FFPE tissue section datasheets or to enquire about custom section services please contact us info@amsbio.com

Applications: Paraffin tissue sections are ideal for:

- Cellular localization of the protein of interest by immunohistochemistry.
- Cellular localization of the mRNA of interest by *in situ* hybridization or *in situ* PCR using both radioactive- and non-radioactive-labelled probes.

Quality Control: The PCR-Ready cDNA was functionally tested with the control primers in the recommended PCR reaction.

Shipping: Slides are shipped at room temperature in a slide mailer or slide box.

Prior to use: Remove paraffin by dipping slides in xylene or any substitutive agent (2 changes 5 minute each), rehydrate in serial ethanol dilutions, and finally wash with PBS. For *in situ* hybridization, make alcohol solutions and PBS in RNase-free water.

Storage Conditions: Store slides at room temperature in a dry place or at 4°C in a sealed bag containing desiccant. Sections are suitable for use 1 year from the date of purchase if stored properly.

Intended use of the products: All products sold by AMSBIO are intended for research use only and must not be used for medical diagnostic or drug purposes. AMSBIO products may not resell, modified for resale or used to manufacture commercial products without written approval from AMSBIO.

Limited product warranty: AMSBIO has a total quality assurance policy. If any product does not meet the specification stated in the product data sheet will be replaced at no charge. This warranty limits AMSBIO liability to the replacement of the product only. No other warranties of any kind, express or implied, including without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by AMSBIO. AMSBIO shall not be liable for any incidental, direct, special or consequential damages, even if it is aware of the possibility of such damages.
