

Factors Affecting Basement Membrane Protein Dependent in vitro Cell Models

3D CULTURE ASSAYS

Cell Passage Number After Thawing Affects Acinar Formation MCF-10A

Thickness of BME Gel Affects Cell Spreading and Morphology MDA-MB-231

Time of Culture and Seeding Density Affects Morphology MCF-7

Time of Culture and Seeding Density Affects Morphology MDA-MB-231

3D CULTURE ASSAYS

PRODUCT NAME

Cultrex® 3D Culture 96 Well BME Cell Proliferation Assay
 Cultrex® 3D Culture 96 Well Collagen I Cell Proliferation Assay
 Cultrex® 3D Culture 96 Well Laminin I Cell Proliferation Assay
 Cultrex® 3D Culture Matrix™ Cell Harvesting Kit
 Cultrex® 3D Culture Matrix™ BME
 Cultrex® 3D Culture Matrix™ Rat Collagen I
 Cultrex® 3D Culture Matrix™ Mouse Laminin I
